Subject: FOR REVIEW: June 29-30 public science meeting website

Hi everyone

Maureen put up a draft of the initial version of the June public science meeting website on the staging server. This meeting is unusual in that it has 2 public comment drafts and then the dermal slope factor for BaP. We asked Maureen to put up 2 different tabs to accommodate the two different types of documents.

We are expecting (short) science topics for ETBE and TBA by Thursday March 24 and those will be added to the website.

Please take a look and let me know if you have comments/suggestions/edits by **Tuesday March 29**. We will be trying to coordinate posting this at the same time as the NRC nominations for experts website goes up sometime during the **1st week of April**.

Login here first: <https://wcms.epa.gov/user>

Subject: FW: June 29-30 public science meeting prep

Hi Maureen,

This is the preliminary text for the June meeting. Is it possible to put this on the staging server? Can we have different tabs for the meeting materials for TBA and ETBE and then BpA?

Thanks - Vicki
